

W CASING SERIES

We manufacture any size of **Casings** currently used in drilling field meeting to the **DCDMA Standard**.

Casing is made from superior quality tubing material, and is threaded on most modern machinery.

Each length is inspected individually for alignment, interchangeability and concentricity.

Features

- 1) Reduces wear**
- 2) Easier joint make-up and break-out**
- 3) Extended service life**
- 4) Interchangeable with DCDMA**

Note: Casings on JIS standard are also available.
